Overview

CSIP is convening three full day events on behalf of the Department of Health for the social care community and their key partners to consider the working of the guidance on protecting vulnerable adults – “No Secrets”. A national consultation document will be published in July and these events are an opportunity to shape the content.

Speakers will include:

- A local Director of Adult Social Services
- A local NHS representative
- A representative of the DH policy team

We are particularly keen to debate the following questions:

- What works well?
- What needs to change?
- How do we change it?

Who should attend?

- Local authority and NHS managers and front line staff, including: adult protection co-ordinators; commissioners; provider staff in acute and mental health NHS trusts and in primary care;

- voluntary and independent sector managers and staff;
- police;
- housing sector staff.
